FEATURES/BENEFITS

100% composite berglass construction
Outstanding performance and durability
Seamless design prevents from leakage
Absolutely will not-and cannot-rust
Factory-backed ve-year warranty

OPERATING PARAMETERS

Maximum operating temperature-
Thread inlet tank 49°C (120°F)
Flange inlet tank 65°C (150°F)
Maximum vacuum: 127mmHg (5"Hg)

PENTAIR DESIGN PARAMETERS

Safety factor – 4:1
Minimum burst at 600 psi
Tested to 250,000 cycles without leakage

MATERIAL OF CONSTRUCTION

Polyethylene Inner shell
Opening in various options:
4 in. threaded,
6 in. anged.

APPLICATIONS

Commercial/industrial softening
Commercial/industrial Itration

COLOR OPTIONS

GR – Gray NA – Natural
BL – Blue BK – Black

This pressure vessel has been tested and certi ed by WQA according to NSF/ANSI Std. 61 Section 8 and Std. 372 for lead free compliance.
